

MONTREAL

COST MANAGEMENT AND COST ENGINEERING

AACE International – MONTREAL SECTION

Tuesday, February 23, 2010

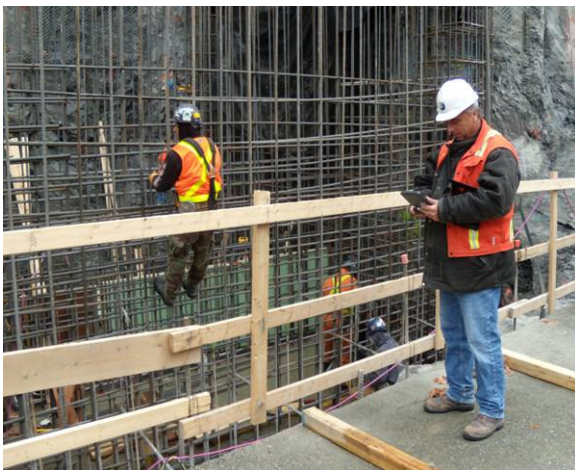

**AN ELECTRONIC NOTEBOOK SYSTEM FOR COLLECTION OF SITE DATA:
PROVIDING INFORMATION AT YOUR FINGERTIPS**

Speakers: Mario Provencher et Chantale Germain

Mario Provencher is Manager of the *Proposition-estimation* group at Hydro-Québec and Chantale Germain, ing. is Manager of the *Planning-estimation, <nouveaux aménagements>*, also at Hydro-Québec.

What estimator or scheduler would not appreciate having the real time data from site inspectors at their fingertips?

Hydro-Québec has implemented a system to collect direct site data by field inspectors using an electronic field notebook.

The system, using this innovative tool, allows for:

- A standardized and meaningful structure of data
- Improved precision of cost estimates from actual and historical data
- Availability of site data in real time to follow the progress of construction
- Timely information for contract administration and change control
- Time-saving and efficiency for the inspectors in preparing their reports

The presentation will describe how this portable tool provides improved availability of site information for control of cost and schedule and how it benefits the *Proposition-estimation* group and the Project Team.

Come out and join your colleagues, exchange ideas and expand your network.

Snack is served from 5:30 pm Meeting from 6:00 to 7:30 pm

**Location: Hydro-Québec – 855 Ste-Catherine Street East, Montréal
2nd floor, Salle Dutilly-Lepage**

The presentation will be in French

Cost: AACEI and PMI Members: \$ 20 Students: \$ 10 Non-Members: \$ 25
